WONDERFUL INDUCEMENT! Attraction Held Out to Secure Cincinnati Excursionists to Maysville.

The first of the coming season's Sunday steamboat excursions from Cincinnati to this city was to have been given last Sunday.

But for some reason—providential, it is hoped—the boat did not reach here, so the disappointment, no doubt, other large and tough cargo.

The promised event had been widely advertised in Cincinnati and along shore, one of the inducements offered on the bills being the assurance that the boat would lay here from 3 to 5 o'clock.

giving plenty of time to visit the place where the boat was burned at this place!

This was a most fetching announcement, and could not have failed in drawing a delightfully morbid gang.

Had the boat arrived, however, it is pretty certain that she would not have been permitted to unload such a crowd as could have been attracted by the inducement held out.

The Bonanza, which is laid up with a broken shaft, will be fitted up with the old shaft of the City of Madison, which the workmen have succeeded in turning one end of. A number of castings will have to be made, however, and this will take longer than to fit up the shaft. The shaft is heavier than the old one, and a new pillow-block has to be made. The Bonanza ran through one engine, besides breaking her shaft, and new cylinder heads and a new piston head have to be cast. It will be more than a week before she can run again. The present broken shaft is the fourth one the Bonanza has broken within two or three years.

There is more Catarrh in this section of the country than all other diseases put together, and still the last few years have been the least favorable to its cure. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has revolutionized the idea, and a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. ARE SURRENDERED

Lord Roberts Reports That the Siege of Wepener Has Not Been Raised.

TWO RELIEF COLUMNS APPROACHING

Gen. Ruddle, via Reddersburg and Gen. Brabant, with Gen. Hart's Brigade via Rouxville.

Two Hundred Transvaal Males a Determined Attack on Dopaport But Were Repulsed With Great Losses—Other War News.

London, April 18.—The war office has received the following dispatch from Lord Roberts dated Bloemfontein, Tuesday, April 17:

"Our force at Wepener is still surrounded, but it is reported that the enemy are attacking in a very half-hearted manner, and are anxious about their communications, hearing that forces are approaching Wepener from two directions—one under Gen. Ruddle, via Reddersburg, and another under Gen. Brabant, with Gen. Hart's brigade in support, via Rouxville."

"On the re-occupation of Rouxville April 15, the few Boers there retired, and Gen. Brabant made some important arrests."

"Violent storms of rain have somewhat interfered with the march of these columns but it is hoped they will soon be able to make their presence more decidedly felt."

"Gen. Settle reports from Kenhardt, April 14, that 200 Transvaal males determined attack the previous day on Dopaport, held by a party of Oorlog's horse. Our losses were two killed and one wounded. The enemy's loss must have been heavy, as they appeal to us for doctors and an ambulance."

SITUATION AT MAKEFING.

Information Furnished by a Scout Who Escaped From the Boer Siege City.

London, April 18.—The success of Lieut. Smith-Eman, the Rhodesian scout, with the exception of a Boer correspondent, a cyclist, is the only white man who has entered Makefing since the siege began, is likely to prove of great value to Col. Plumer, to whom he has returned with dispatches, should Plumer decide to raise the siege of Makefing in earnest.

Lieut. Smith-Eman reports that the troops at Makefing are confident, holding out two months longer. The men in the trenches are determined to play the game to the end. The Boers are being bolstered up by all sorts of stories from Pretoria, among them being reports that Kussel and France have been declared war against Great Britain.

The Boer artillery about Makefing is well housed. Their pom-poms are mounted on light four-wheeled carriages, each drawn by four smart horses, in marked contrast with those Col. Plumer fought with at Crocodile Pool. The Boers, who are well equipped and well dressed, and have fine-looking patrols. The grain and other crops in the district are excellent, and the Transvaal are not likely to suffer from scarcity of food for a long time.

Boer's little force is now strongly entrenched northwest of Makefing. The country thereabouts is much easier traversed than that the Rhodesians are operating in. The Boers' casualties Saturday were 75, but many are convalescent. Men and horses are improving in health as the winter approaches.

Natives report that the inhabitants of Makefing are very hungry. Should a flying column be sent to their relief, it will find the country well grassed and watered as it proceeds northward.

BRITISH CASUALTIES MARCH 31.

London, April 18.—A letter has been received here from Commandant Snyman with reference to the British wounded and prisoners at the Boer laager after the engagement of March 31, from which it is learned that 200 British died of his wounds. Lieut. Gilligan is not a prisoner, and is believed to be among those the Boers killed. The British casualties were 200 killed, 200 wounded, 36 men wounded, one officer and 11 men made prisoners.

Roberts Censures British Officers. London, April 18.—The war office publishes in the Gazette a letter from Lord Roberts, dated February 13, submitting Gen. Buller's dispatches describing the Spion Kop and other operations from January 17 to January 24. Lord Roberts deals severely with Gen. Warren and some others. Even Gen. Buller does not escape.

Attack on Wepener Weakening.

London, April 18.—A dispatch to the Times from Johannesburg dated Monday, April 16, says: "On Friday the Boers tried to rush Col. Dalrymple's left front, but retired soon after the attack is apparently weakening, although large numbers of fresh Schanjes are visible along the enemy's position."

Lifeline at Ladysmith.

London, April 18.—The Ladysmith correspondent of the Morning Post telegraphing Tuesday says: "The condition of affairs in this part of the theatre of war is one of absolute lifelessness."

TROUBLE WITH TURKEY.

The Sultan Refuses to Pay the Indemnity Claims of the American Missionaries.

Washington, April 18.—There is no longer any question that the diplomatic relations between the United States and Turkey are in a critical state, growing out of the sultan's refusal to pay the indemnity claims of the American missionaries for the destruction of eight buildings of the Ephraim College at Harpoot, and several buildings belonging to the American missionaries at Marsh during the Armenian massacres of 1895. Mr. Straus, the United States minister to Turkey, is at present in the United States on leave of absence. As has already been announced he presented his resignation but the president, regarding the services of Mr. Straus as indispensable, definitely extended his leave subject to the return of the secretary of state whenever circumstances may necessitate his return.

Diplomacy appears to have exhausted itself. Constantinople, the sultan having promised to pay the indemnity claims, amounting to some \$50,000, which promise was again repeated by the sultan's minister, and although 16 months have elapsed since the promise was first made, that promise still remains unfulfilled. What action the government will now take to enforce the sultan's promise is not definitely known, but as the situation is critical, it may result in Secretary Hay sending the Turkish minister at Washington his passports.

MINERS STRIKE ENDED.

Orders Given to the Men in the Pittsburgh District to Return to Work at Once.

Pittsburgh, Pa., April 18.—Resolutions calling for immediate resumption of work by all of the striking coal miners in the Pittsburgh district was passed by a unanimous vote of the delegates to the convention which has been in session here several days endeavoring to correct the troubles which brought about the strike.

By means of many conferences between the operators and the convention committee, all the differences have been amicably arranged except the outside day wage scale. This feature is left for settlement to a committee of three to be aided by the miners' officials. The demand is for an advance of 20 per cent. on the outside day wage scale, and whatever settlement the committee effects with the operators will be in operation before the end of the week.

The delegates will return to their constituents at once and it is believed the miners will be in operation before the end of the week.

QUIET AT CROTON.

An Early Settlement of the Strike Is Looked For by the Men Returning to Work.

Croton Landing, N. Y., April 18.—The strike of the Italian laborers on the new Cornell dam in the Croton Valley is still on, but the contractors claim that it will soon be over. Everything points to either a speedy settlement of the difficulty with many of the strikers going back to work, or else a prompt settlement of wearisome and futile days, if not worse.

The killing of Sergt. Douglas has caused the aspects of affairs very much to the disadvantage of the laborers, who are clamoring for an increased scale of wages.

Outside of the arrival of the additional troops the only other interesting episodes of the day were the holding of a funeral for the body of Sergt. Douglas and the removal of his remains from the camp to his late home in Mount Vernon for interment.

Electricity in Louisiana.

New Orleans, April 18.—The election in Louisiana for members of the legislature and a full state ticket resulted in a democratic landslide. The electors elected by W. W. Hay and several of the state, and the legislature is overwhelmingly democratic.

The residents of the neighborhood of Rectortown are pretty badly scared on account of one of the Misses Rash, living about a mile Southeast of that place, having what is pronounced by Dr. Bowman a genuine case of small-pox.

Perfect digestion is the only foundation for perfect health. The food we eat makes all the blood we have, which in turn feeds every nerve, muscle and fiber in the body. Herbine quickens the appetite, aids digestion, and restores vigor to all the functions and ensures good health. Price, 50 cents. J. J. Wood & Son.

The annual reception at the Christian Church last evening was one of the most pleasant of the many socials given at that edifice. The Maysville Orchestra was present and during the evening the visitors were entertained with vocal and instrumental music. Refreshments were served. The evening will be pleasantly remembered by all who attended.

Jack Shepperd, Zeke Smith and Louis Wilburn, arrested on a charge of housebreaking, had a hearing yesterday afternoon before Judge Wadsworth and were jailed for the Grand Jury in default of \$200 bail. This was for pilfering on the property of the Water Company. The same parties are yet to be heard for raiding the plant of the Fuel Gas Company.

FOR THE PUBLIC GOOD.

The information contained in this Citizen's Statement is favorable to Mayville People.

When a resident of Mayville, whose statement appears below, who has no monetary or other interest in the article which he indorses, who is anxious to do his acquaintances and fellow-residents a good turn, who publishes in this paper his experience with Doan's Kidney Pills, that citizen must have good and sufficient reason for doing so. The following should dispel any doubts which may have existed in the reader's mind on this subject.

Mr. P. Gantley, grocer, of 314 East Fourth street, says:

The prompt and thorough relief from backache given by Doan's Kidney Pills is the strongest indorsement possible. When backache is caused by the lack of proper action of the kidneys, the only reason for continuing to suffer is the want of knowledge of Doan's Kidney Pills. I procured them at J. James Wood & Son's Drugstore, West Second and Market street.

INSULT ADDED TO INJURY.

What Goebel and Goebels Have Done For the Great State.

Lexington Evening Post.

The Lexington Herald, in a recent issue, after reviewing the decision of the Court of Appeals in the contested election case, says:

"It is adding insult to this unpeppable deprivation to be told that redress can be found at the polls. How? The Election Boards elect as they please; the acts of that Legislature and the records of the defeated and the elected are destroyed and installed the defeated; and the Courts approve these decisions as unassailable—nay more, as sacred. When we vote and win at the ballot-box, our votes are thrown out; when we elect, the Boards decide against the elector; when the Legislature acts—it hears no argument; it refuses to permit the truth to be set out in its journals; and when we seek redress at the Courts we are driven out with the injunction that we must seek redress at the polls. And all this is done, not only under the 'forms of law,' but as now decided as a matter of right—all these acts are legal acts within the Constitutional power of these bodies."

"On this April Sunday morning we repeat that under this decision there remains no peaceful and legal remedy in Kentucky against those who own the machinery of this Electoral system. Under the Goebel Law. They count the votes, and the certificates are given them; they decide who is elected; their choice constitutes the Legislature; the acts of that Legislature and the records of alleged acts are the supreme law of the state, while all other laws are bound. Thus the ballot-box, the Boards and the Legislature are owned by them, and they are above the Courts, as well as above the law."

It does seem little short of mockery to sustain all that has been done under the Goebel conspiracy, then to point the people to the ballot-box as a Court of last resort in a free community. The ballot-box has been tampered with; in some counties it has been abolished; in other counties its results have been ignored and certificates made to deliberately falsify the will of the people. The worst things predicted of the Goebel Law have come to pass, and worse things than any person in a free community could believe possible have been done; and, worst of all, these crimes against suffrage, these conspiracies against popular government, these falsehoods embodied in county returns and in legislative journals, have been established as the law of the land by the highest Courts in Kentucky.

Yet we make another appeal to the unpurchased suffrage of the people of Kentucky: another appeal to the unperfected citizens of a free Commonwealth. This conspiracy is bound to go down before an indignant people; it is bound to go down when the people realize what crimes have been committed in the name of law; it is bound to go down when the voter knows that the ballot is the only resource, and that a false second time at the ballot-box precludes a bloody revolution.

All during the past campaign the orators of the Goebels sneered at the people in revolt against the degradations of the ballot-box. Mr. Goebel himself, Mr. Wilburn, Mr. Wheeler and scores of others in effect declared, "We hold the ballot-box in our hands; what do you intend to do about it?"

It was believed that this law as it stood was sufficient to override any majority; it was found that the conspirators had underestimated the strength of the opposition which they had aroused. Then it was that they went beyond not simply the spirit but the letter of the law; then it was that they organized criminal proceedings in counties innumerable in effect declared, "We hold the ballot-box in our hands; the determination was made to overthrow the ballot-box in Jefferson county; to deprive the people of Kenton absolutely of any participation in the election; to cut down the Republican vote in the Eleventh District and to return the votes of the Fifth and Sixth in accordance with the necessities of the conspirators."

Our own people were only half awakened to the impending dangers. Could they have foreseen the desperate efforts of the Goebels in the Legislature; could they have known how close we were drifting toward the abyss of civil war, they would not have rested in peace. On the night of November 7th they would have had at every Precinct in every county of the state a guard of minute men prepared to resort to any measures—even the most extreme—to prevent a false count or to check the organized schemes of intimidation. There had been rumors throughout

the city of Louisville during Sunday and Monday preceding the election of the deliberate purpose of Messrs. Hoertz and Caruth to trample the law under foot and to deprive the Republicans of their legal representation at the various Precincts in this city; yet the people doubted. They had read the instructions issued by these two men forbidding Brown inspectors to witness the count, yet they doubted. They recalled the action of the city authorities in the June 12th primary; they had fresh in their minds the picture of the Jailor of Jefferson county participating in the overthrow of the ballot at that primary; and yet they doubted if Hoertz and Caruth would so far forget their obligations as citizens and their oaths as officers to go to the length demanded of them by the managers of the Goebel campaign in this city.

In the afternoon, when the proposition was first made to commit this crime against free institutions, Mr. Hoertz hesitated. For an hour or two the pressure brought to bear against him did not move him and he stood with Judge Barr for two critical hours, making a contest for the right of suffrage for the city of Louisville.

Then, by some unknown influence, he fell. Late in the afternoon he joined with Mr. Caruth and voted for the removal of eighty-seven Republican election officers and for the appointment of men, a list of whom came from the conspirators, against suffrage in this city.

It was dark when this fact was known. The public had been assured of a fair election, as they believed during the afternoon by the refusal of Mr. Hoertz to participate in the conspiracy. Then came the surrender of Mr. Hoertz to these malign influences, and for the moment the people were stunned. Judge Barr prepared a short address, which was to have been issued in an extra, but after considering the gravity of the situation, fearing that any official statement from him concerning the outrages that had been committed might inflame the public mind to a dangerous degree, Judge Barr withheld that address of his request.

It was withheld, and on the following day an appeal was made to the Courts to check the heading course of the reckless conspirators. Judge Toney did all within his power, but the machinery of the law cannot be promptly set in motion on such an occasion. It failed of practical effect to a very large extent. Precinct after precinct was outraged by the officers; false returns were certified to without a quiver of conscience, and men bearing the mandates of the Court were by officers of the law knocked down and prevented from performing their duties. But the moral effect was to maintain the peace and to prevent the consummation of the greatest outrage. Where the conspirators had demanded from the Fifth District a majority for Goebel of 5,000, there was a return of 3,200 for Taylor. In other words, an aroused public opinion in Jefferson county saved this outrage that had been committed by the officers.

In Kenton county the outrages attempted were very successful. Figures required of Kenton were certified as the legal returns, though known to be a falsehood of tremendous proportions.

Under this aroused feeling the state was saved. The conspiracy expected to wipe out a majority of 37,000, which they realized was the majority two weeks before the election, and to certify a majority for Goebel of from 6,000 to 10,000. They failed in this utterly, and then they brought to bear upon the Commissioners at Frankfort the whole machinery of personal and political intimidation. The world will some day know the effort made to compel Judge Pryor and Mr. Ellis to certify to the election of Mr. Goebel. It failed. And then, rallying their forces, the conspirators did what had never been done before in the state of Kentucky—carried to the Legislature a demand that that body reverse the will of the people and install in office a defeated candidate for Governor.

We recall this long and disgraceful story and keep it fresh in the minds of our people. We recall it in order to point out the fact that the people still believed that in a last resort they could have between them and their enemies the shield of justice and the protection of law. They believed with Mr. Bryan, that the will of the people is the law of the land, and that Courts, returning boards and Legislatures existed merely to give force and effect to that will, which had been formally declared at the ballot-box Tuesday, November 7. They know today that this hope is in
